► Variety of options

Modular structures of the RoyalTent company can take any shape to perfectly fit any environment.

Application

Restaurants, cafes, summer terraces

RoyalTent has ready-made engineering solutions for year-round operation:

- door systems
- heating and air conditioning systems
- energy-efficient double-glazed windows

Application

Exhibition and trading pavilions

Our wooden structures are unique and impressive.
You'll have the advantage over your competitors.

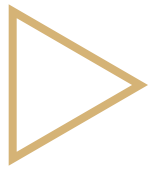

Application

Park zones

Wooden tents of RoyalTent company can take place in the any modern park:

- lecture halls
- places for yoga, dance, sport activities
- pavilions and covered recreation areas

Large-span architecture

We've mastered the art of large-span architecture.

Our technologies let us install structure of any size –from a small sun shade to a roofing system for a stadium with a free span of 250 meters without use of supports.

We can provide you with any exclusive solution for your request.

Why us?

No1

**Own installation teams
(20 teams in the regions)**

No3

**The Design Department
calculates the load and creates the
optimum scheme**

No2

**Highly qualified
professionals with
experience of over 15 years**

No4

**Own unique installation
technology and
maintenance services**
