

ROYALTENT

The most beautiful tent solution and
exclusive tensile structures in
the Middle East

**GUARANTEED TO MAKE YOU
WOW!**

General Guidance when choosing a tent:

Main Tent:

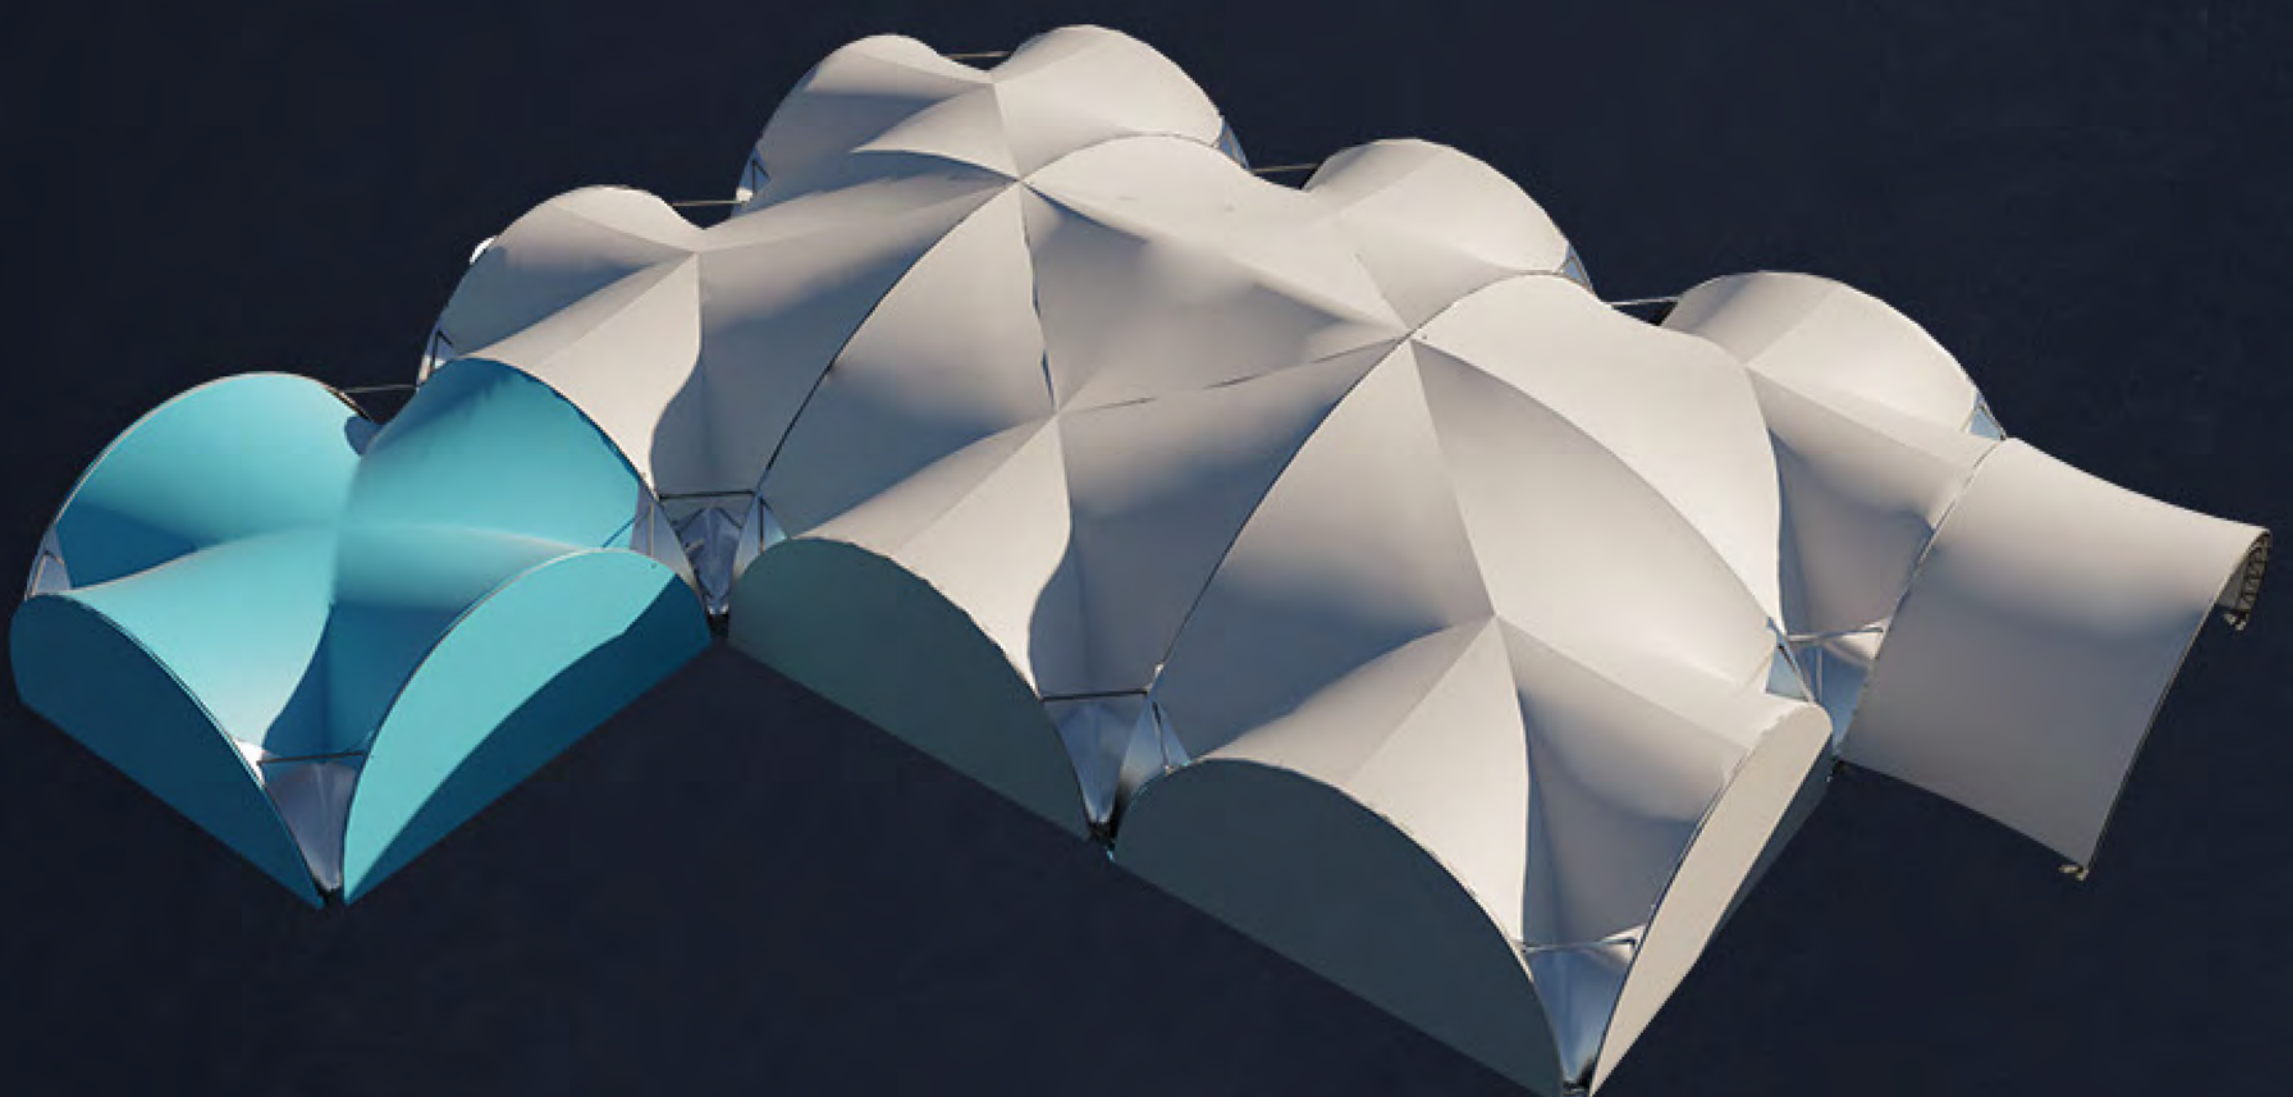

During banquet (**buffet with round tables set up**) min required space per person is 2sqm for the dining area.

Example: 100 guests need a minimum of 200 sqm. tent

Stage, dance floor required additional space.

Kitchen tent and other services tents can be attached to the main tent as an extension, separated by a wall with a door.

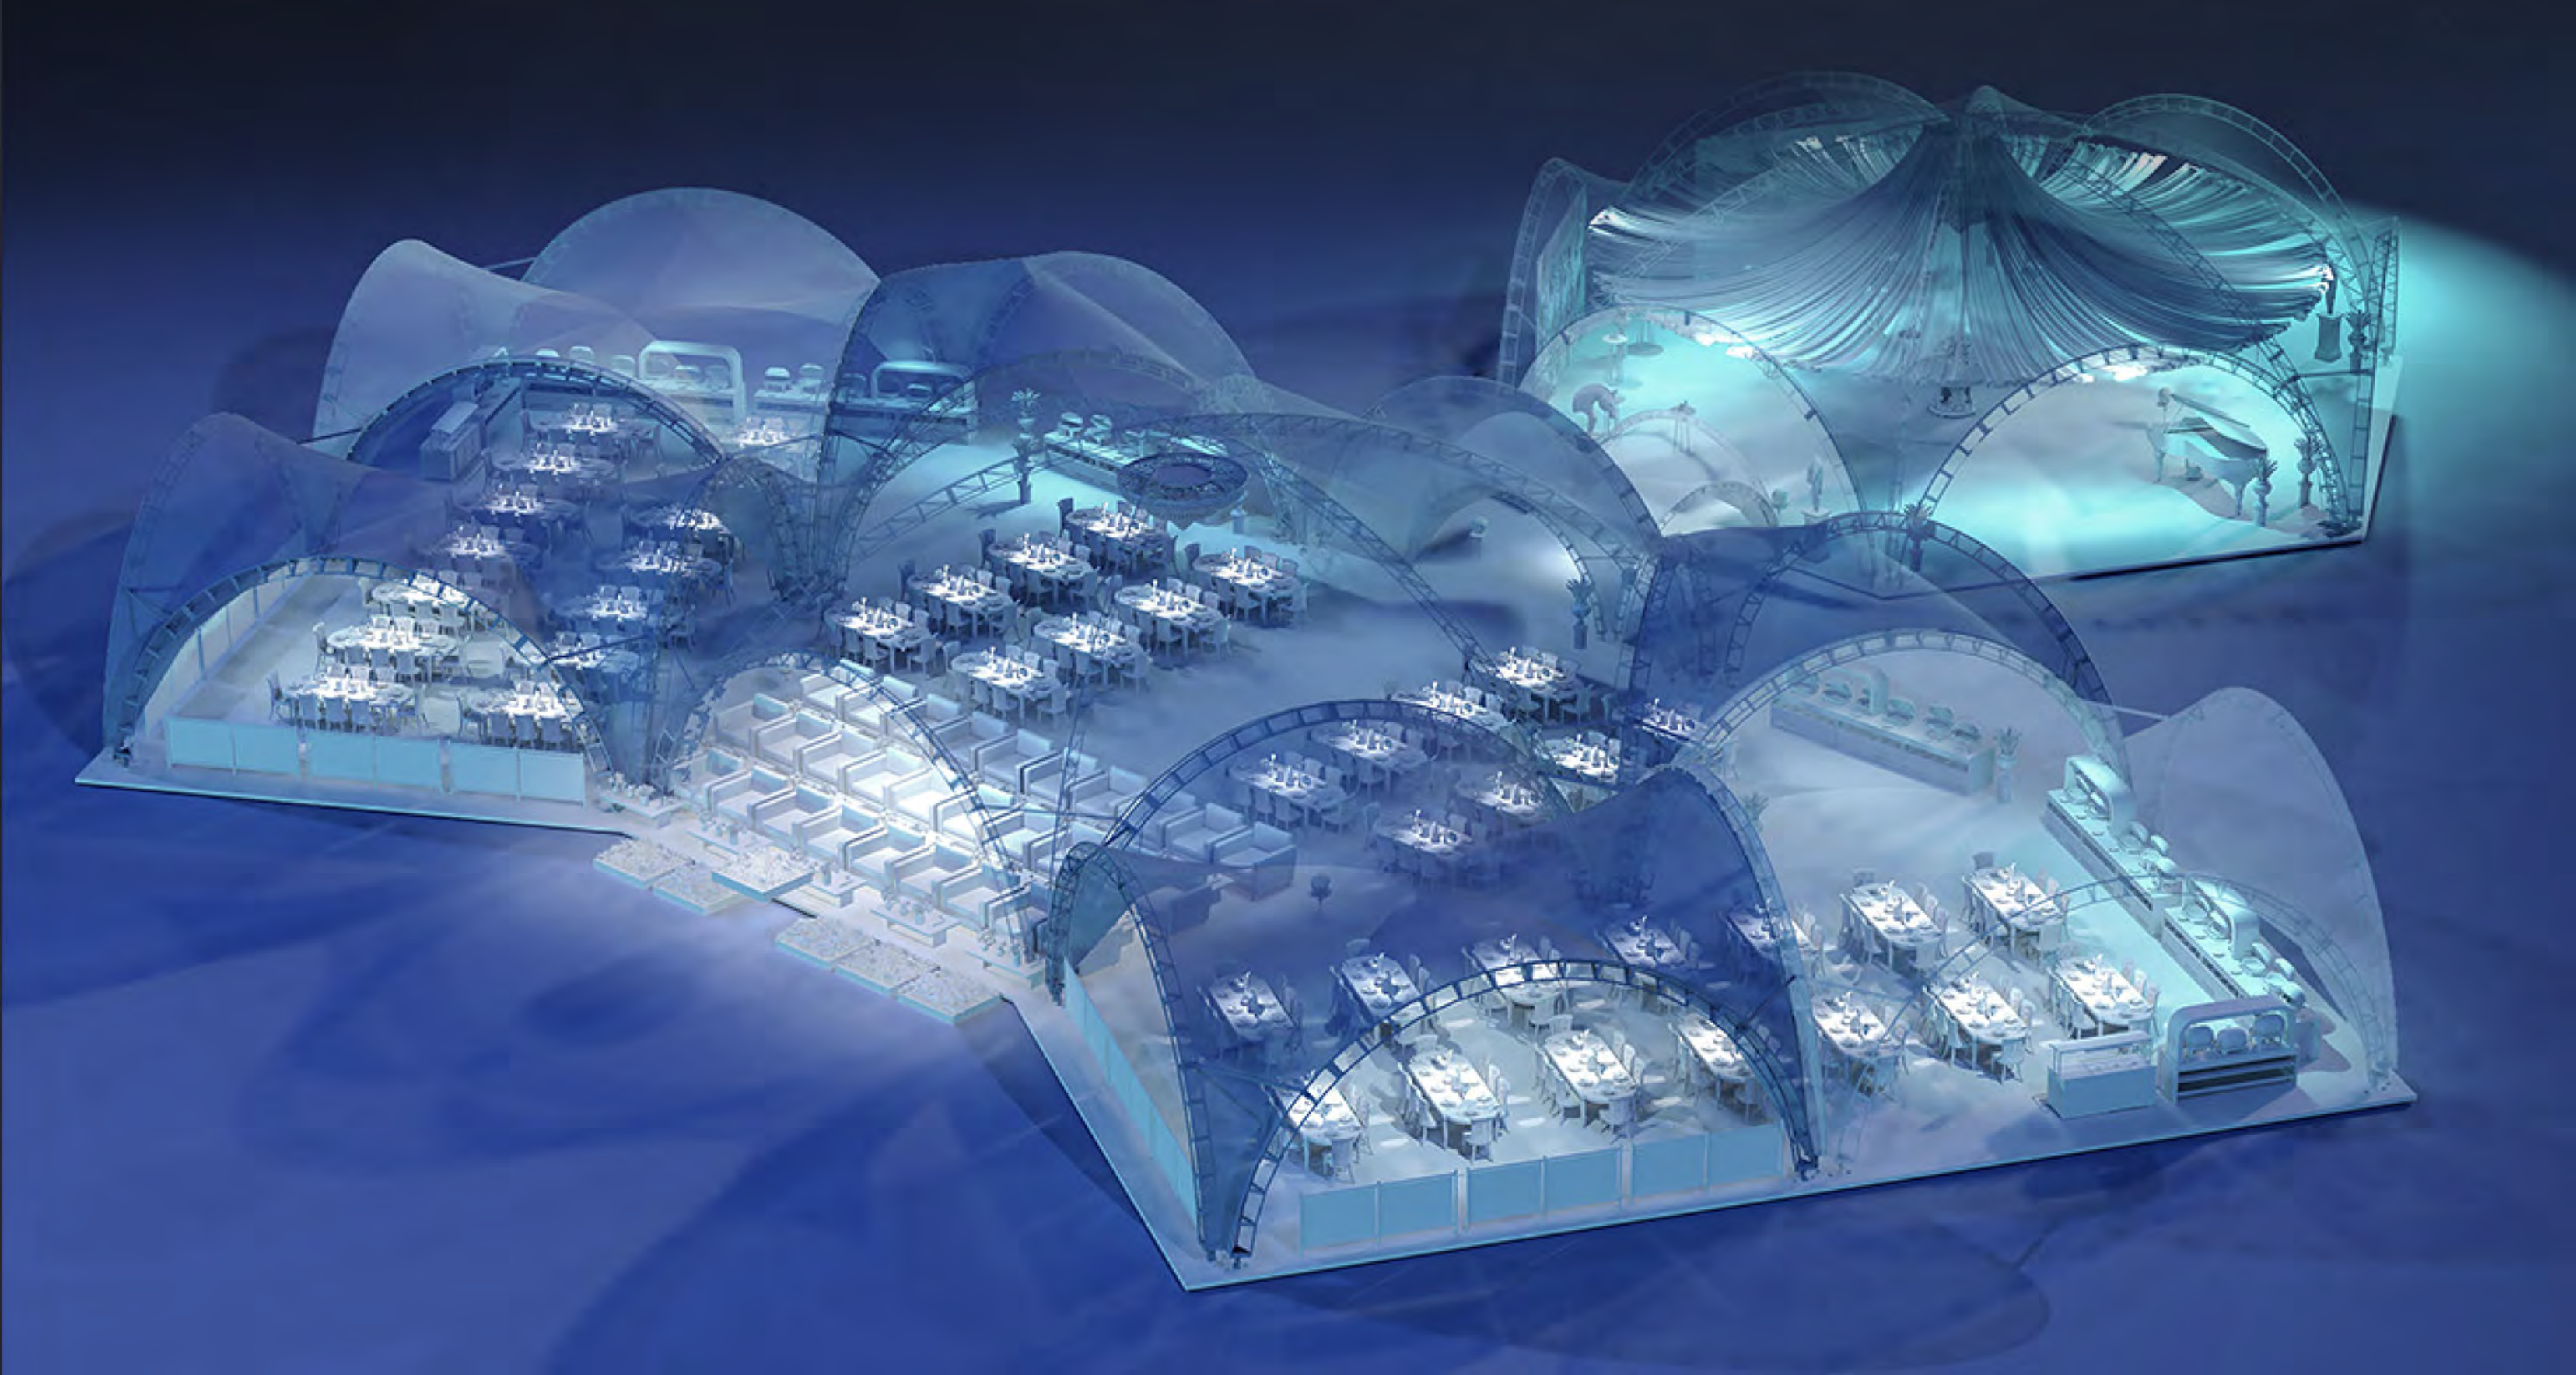

Minimum space requirements depending on the nature of event, including service area:

- Luxury wedding
- Standard wedding
- Majles
- Banquet
- Catering tent
- Cocktail reception
- Meeting room
- Conference tent
- Briefing room

- 3-4 sqm per person.
- 2.7 sqm per person.
- 4 sqm per person.
- 2.5 sqm per person.
- 2 sqm per person.
- 1.5 sqm per person.
- 2.2 sqm per person.
- 1.7 sqm per person.
- 1.5 sqm per person.

GENERAL STRUCTURE SPECIFICATIONS

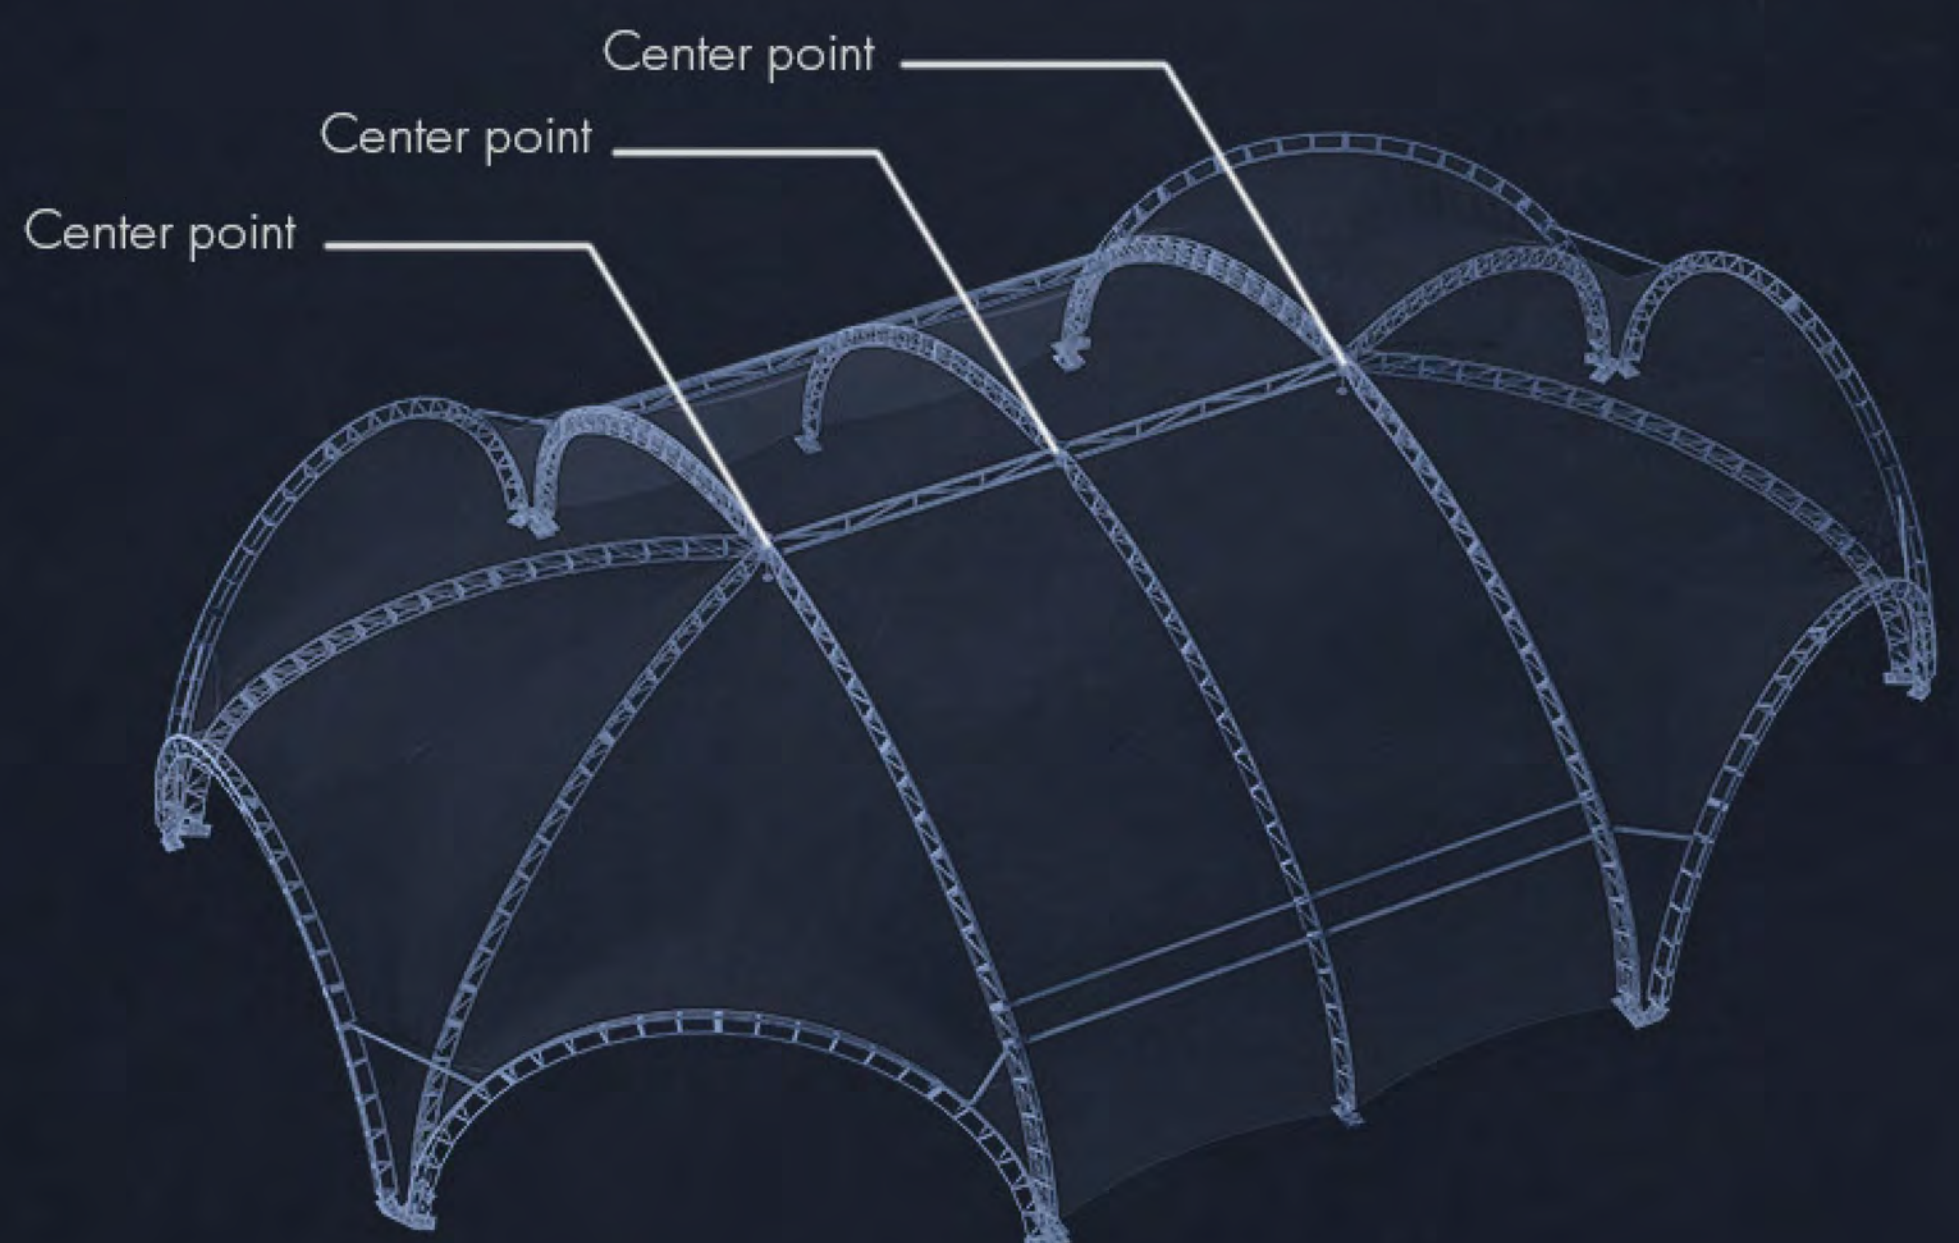

(FOR ALL TYPES OF ARCH TENTS)

Full structure:

- Wind resistance – up to 35 m/sec (126 km/hour).
- Rain proof.
- Free standing, self-balanced.
- Tent skin is stretched over the frame with tension mechanism for ideal tensile properties.
- Guaranteed new, clean PVC and frame, free from wrinkles, scratches, dirt and rust.

Steel frame specifications:

- Rein forced steel frame with hot dip galvanized anticorrosio finishing.
Can be powder coated additionally.
- Frame load capacity – up to 54 kg. per linear meter.
- Center point of the arch load capacity is up to 300kg.
- Pipe size is 32mm.

PVC specifications:

- Fire retardant.
- High quality PVC, 10 years warranty.
- UV resistant.
- Pre-tensile. Tear strength min 300N up to 1200N, depending on the thickness.
- Standard PVC thickness for rental structure is 900gsm, with tear strength 900N.
- Standard rental PVC is translucent (allows some light to come through, gives nice warm light inside without the need to use additional lights during the day).
- Blackout PVC is also available for both roof and sides.

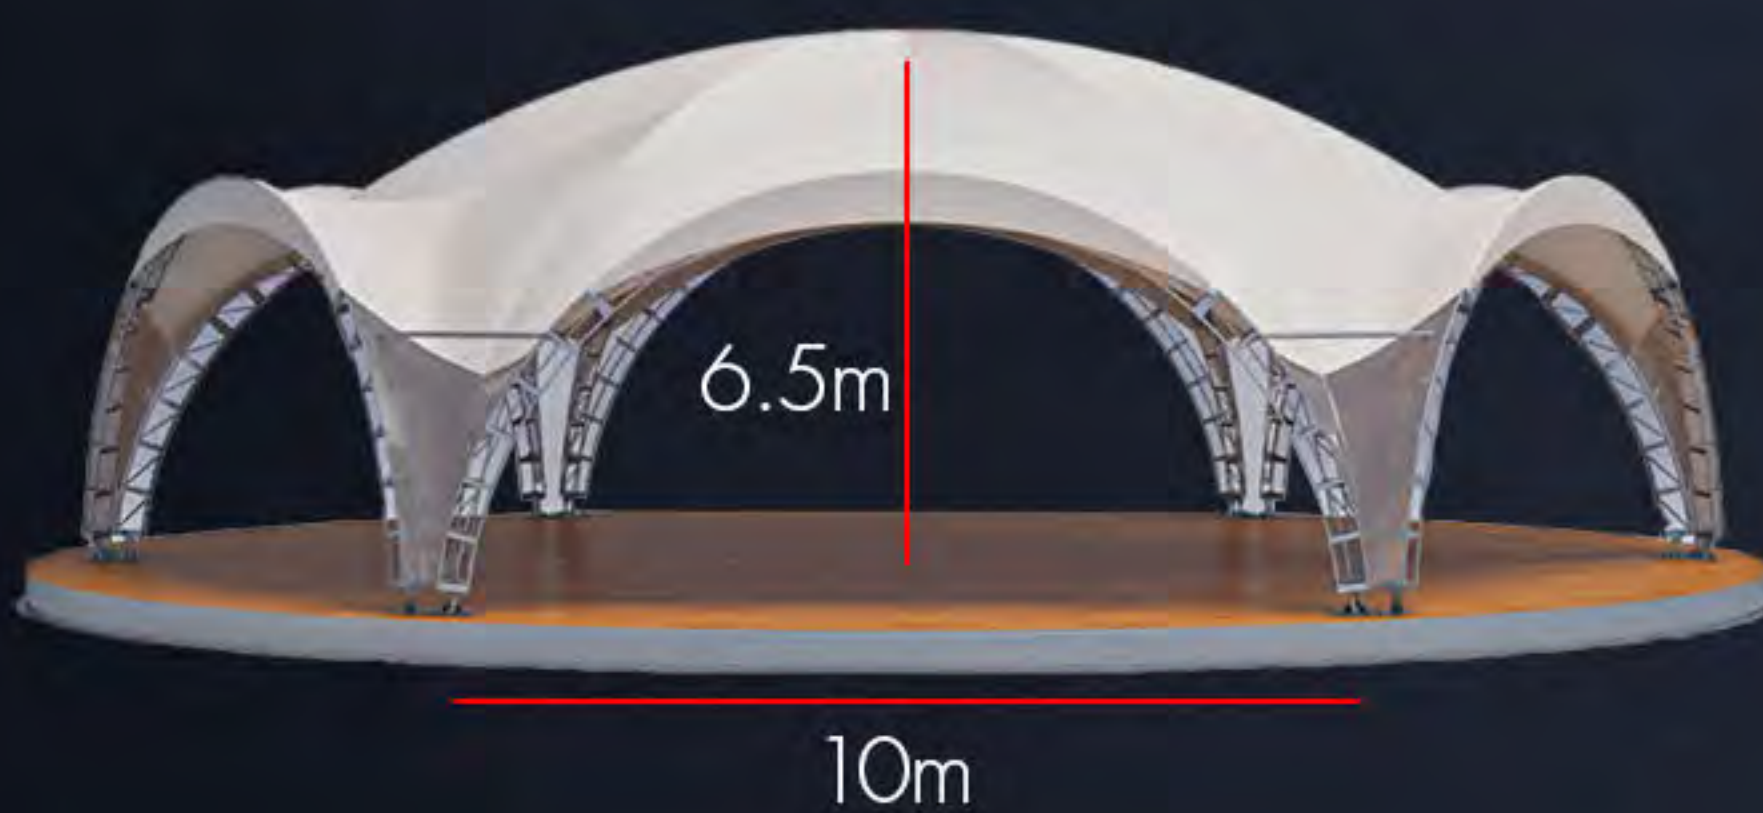

ARCH HEXA

DIMENSIONS :

Tent area **260 sqm.**

Hexagon shape, each side **10m** wide,
6.3m height in the middle. height of the side arch **4.5m**

260 sqm

TENT EXTENSION :

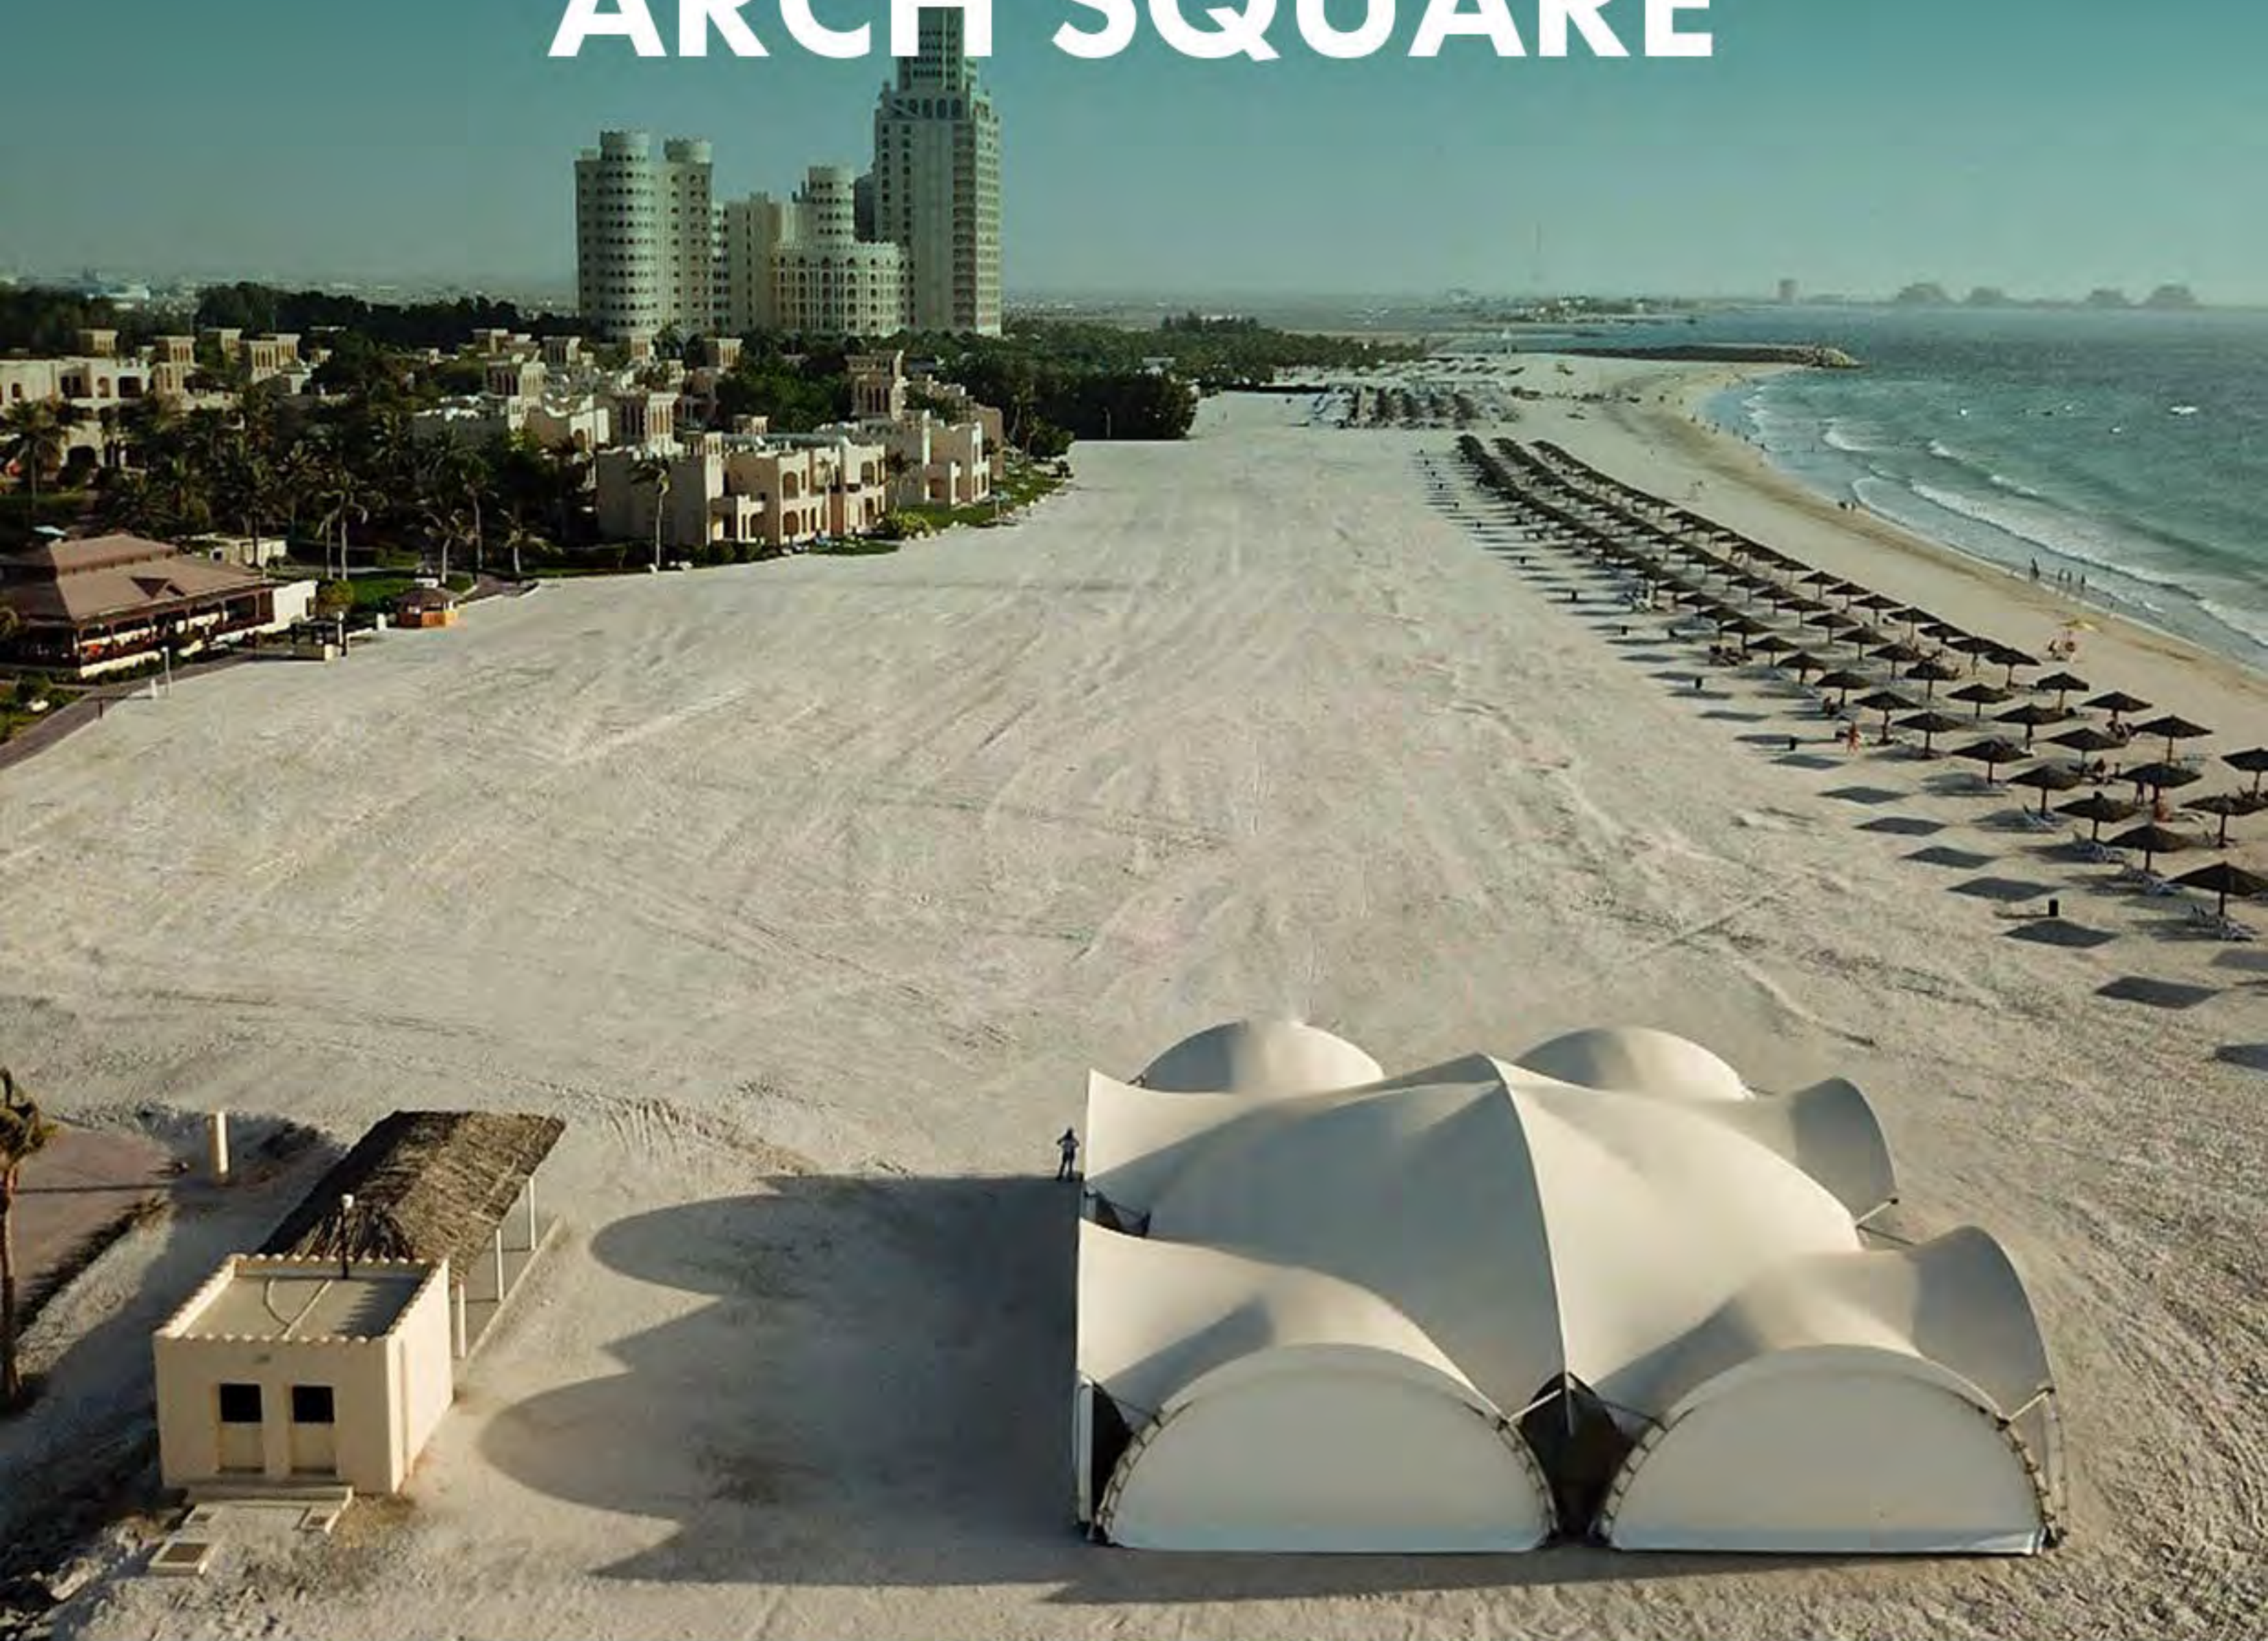

5X20
Tent extension part

10X20
Tent extension part

ARCH SQUARE

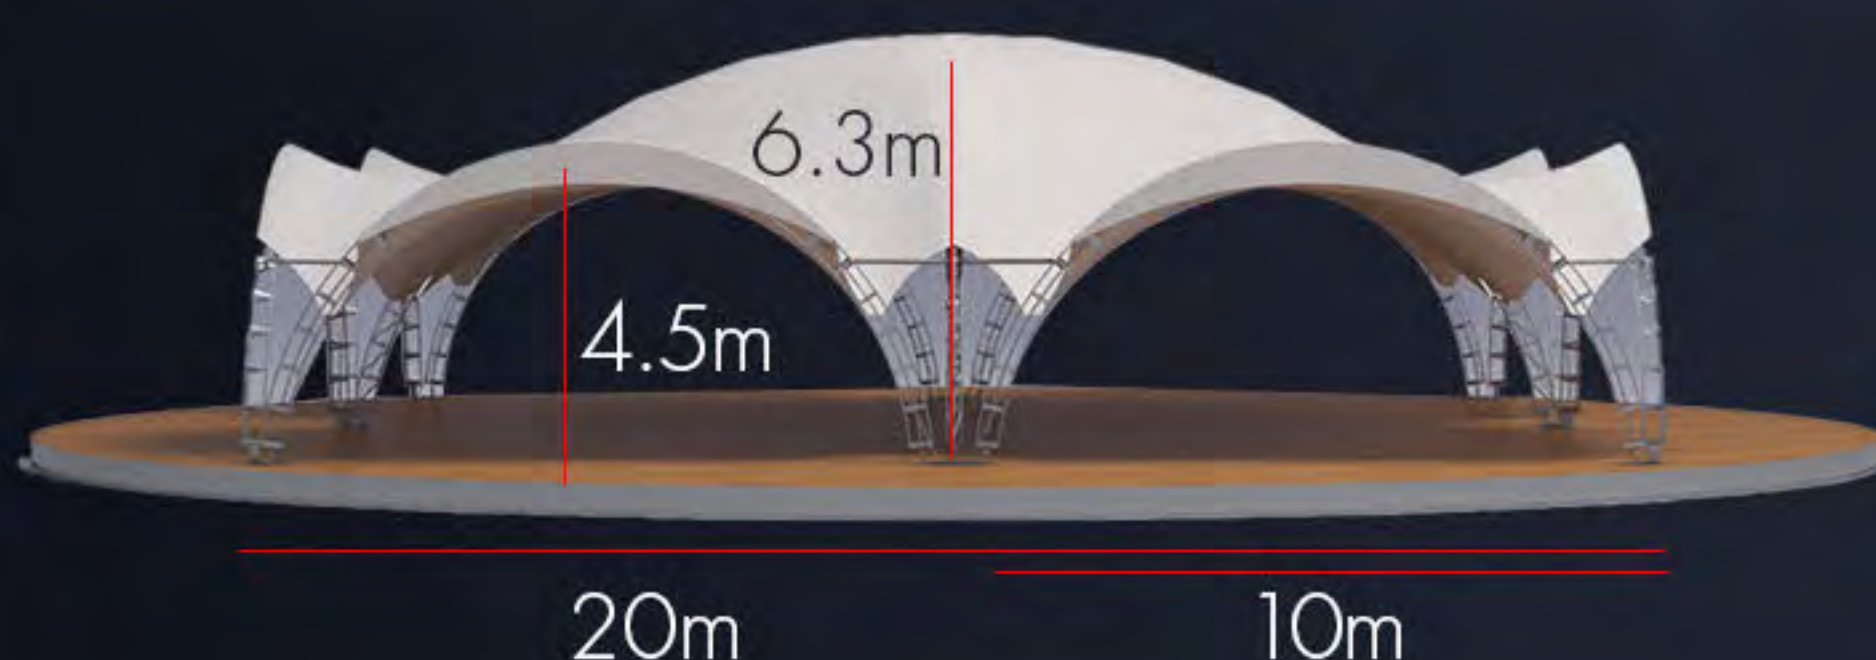

DIMENSIONS :

Tent area **400 sqm.**

Rectangular shape 20x20m, with 2 arches at each side.

Height in the middle 6.3m, side arch size 10m width and 4.5m height in the middle.

400 sqm

TENT EXTENSION :

5x20 tent extension parts

10x20 tent extension parts

ARCH TENT

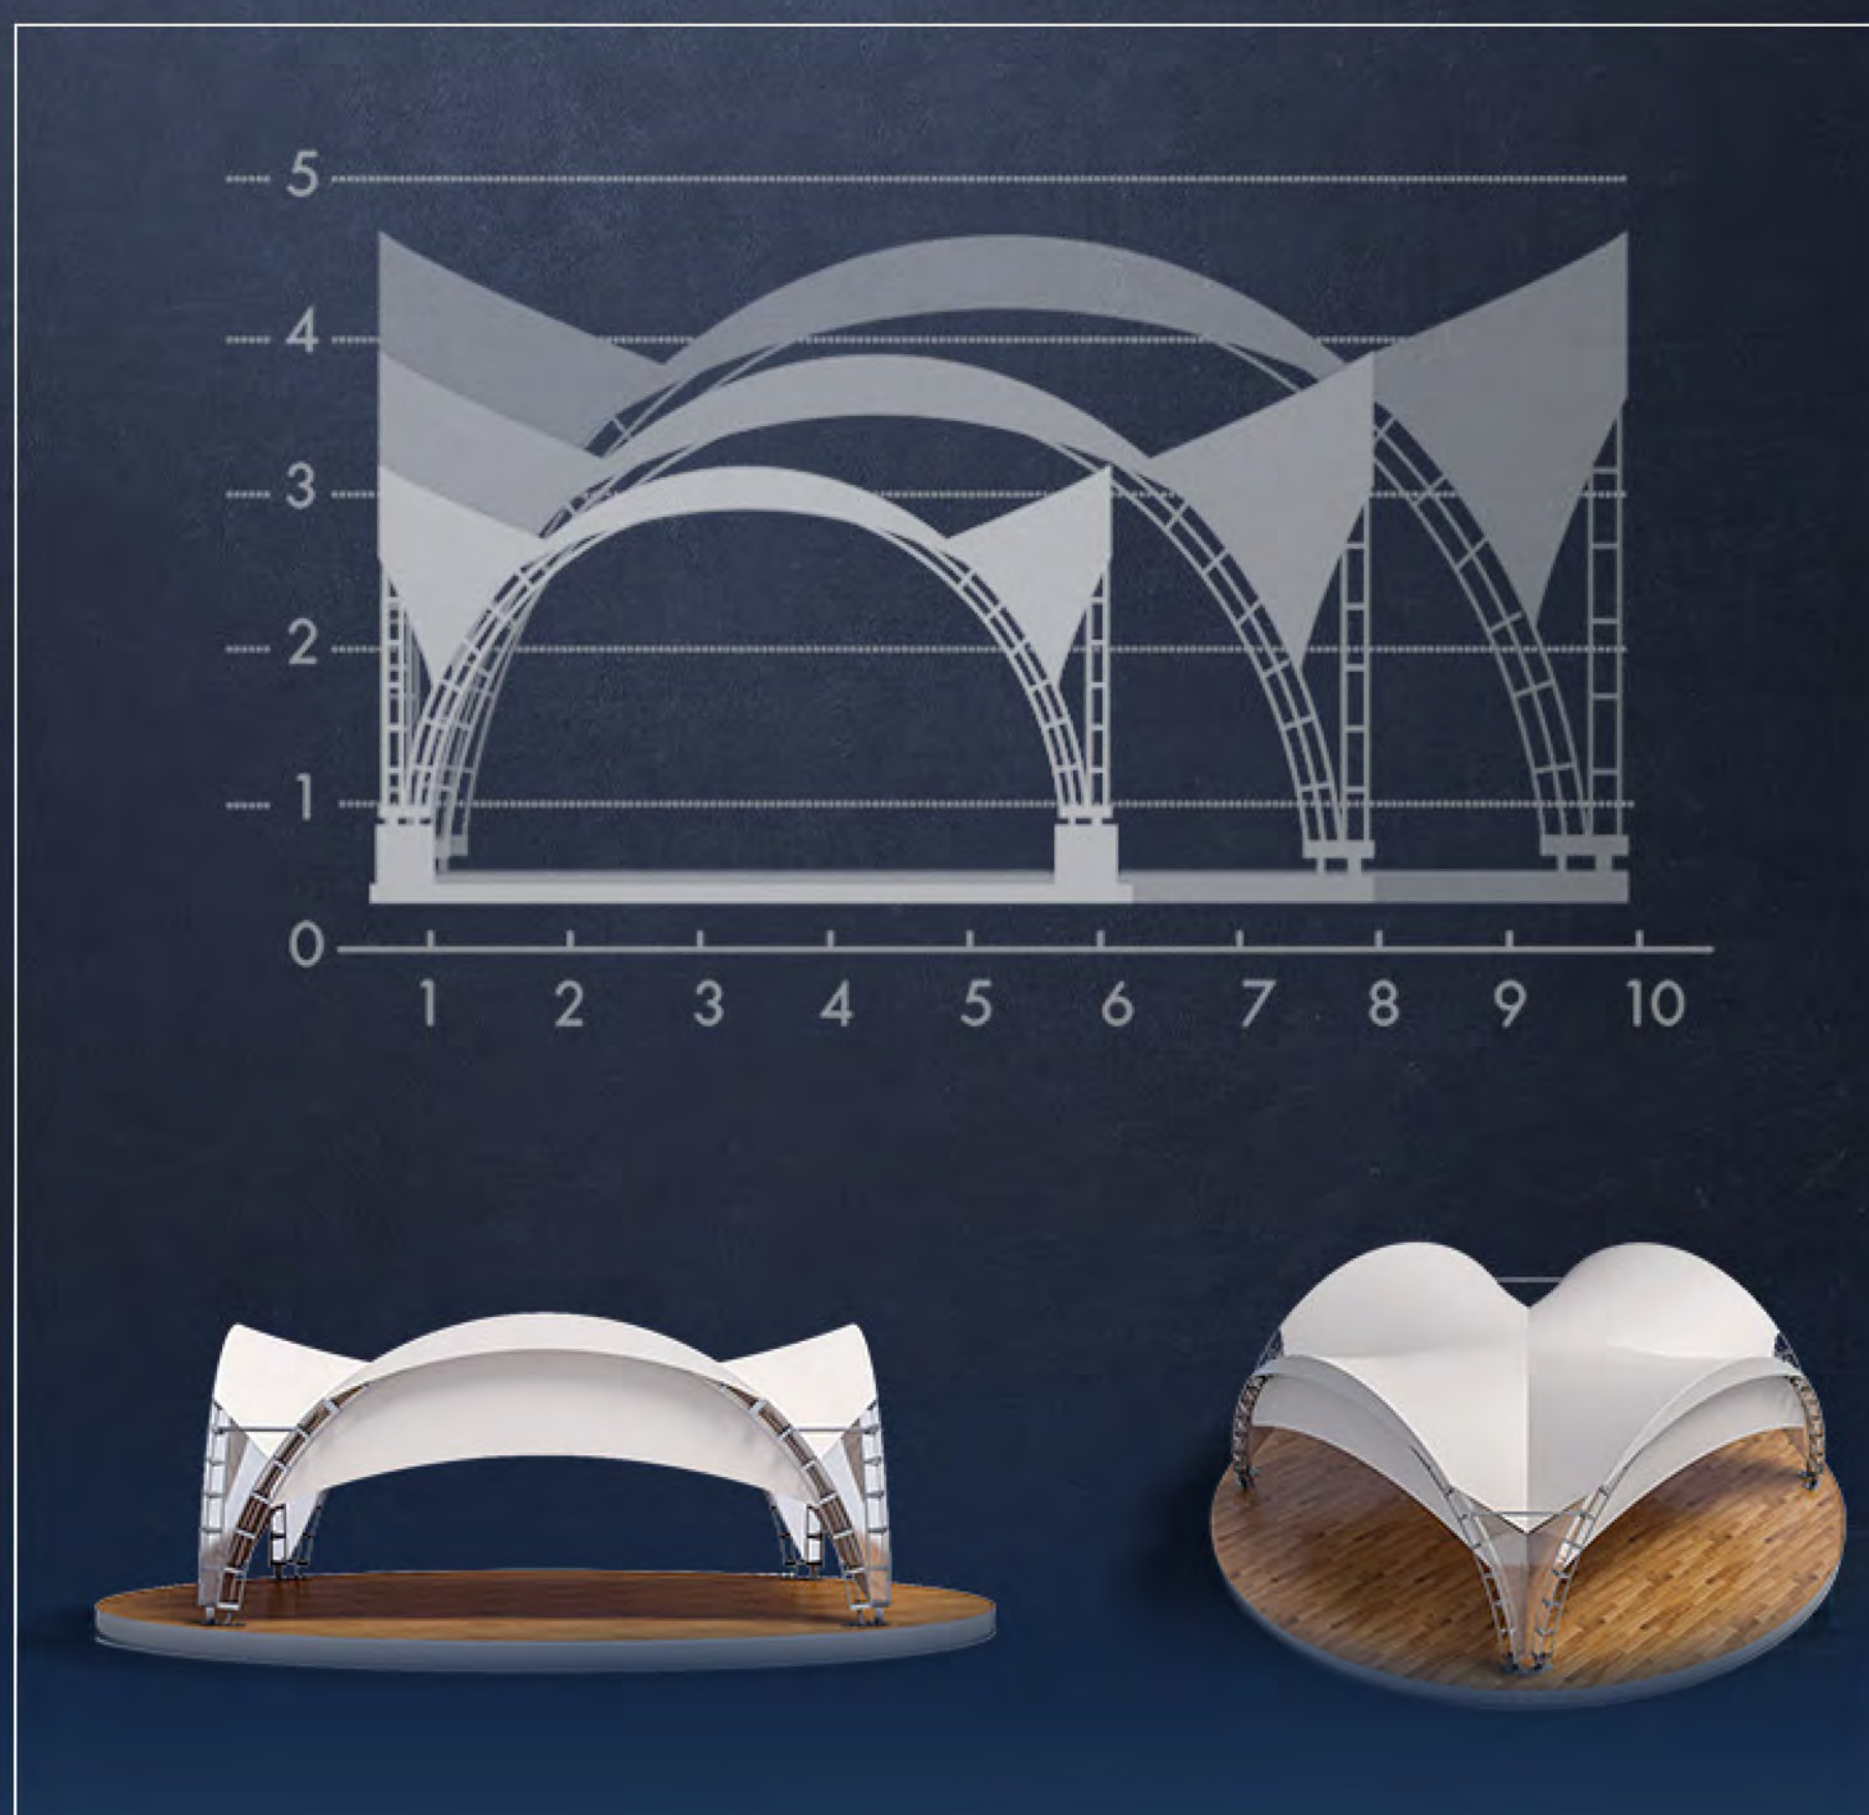

AVAILABLE SIZES:

6x6m

8x8m

10x10m

Center of the ceiling
is the lowest point
of the tent.

ARCH DUNE

AVAILABLE SIZES:

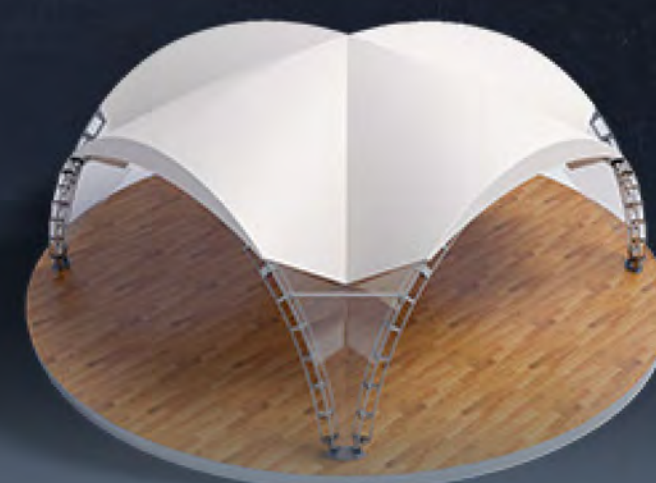

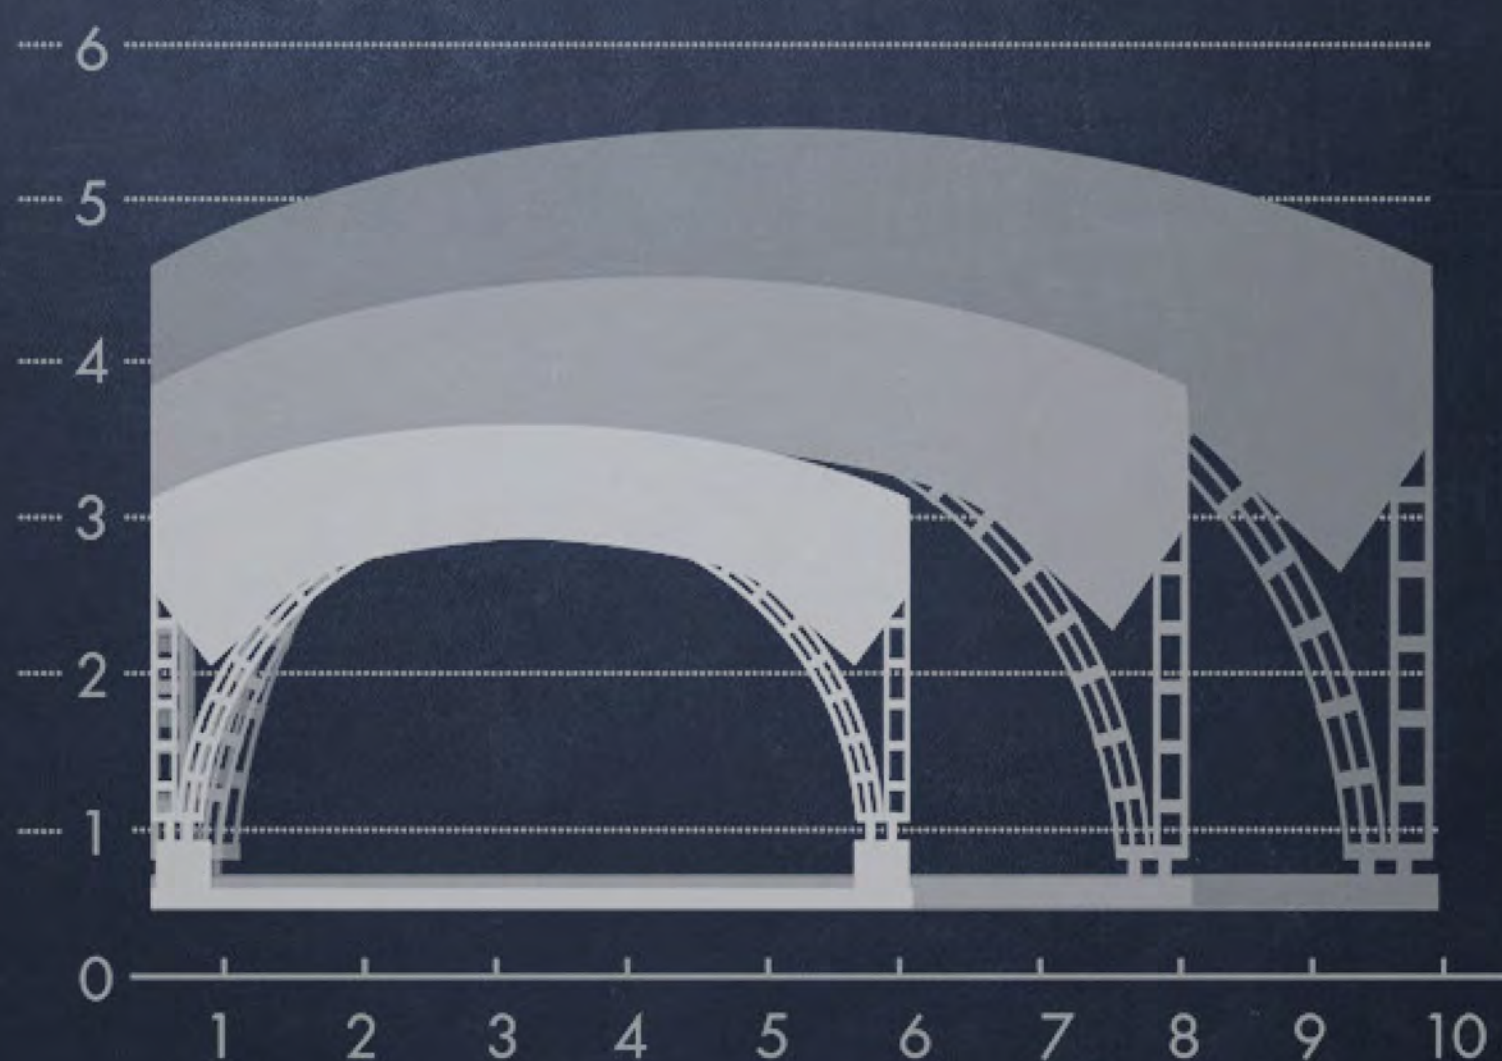

6x6m

8x8m

10x10m

Center of the ceiling
is the highest point
of the tent.

Has central truss with
a connector, that can carry
additional weight.

ARCH GATE

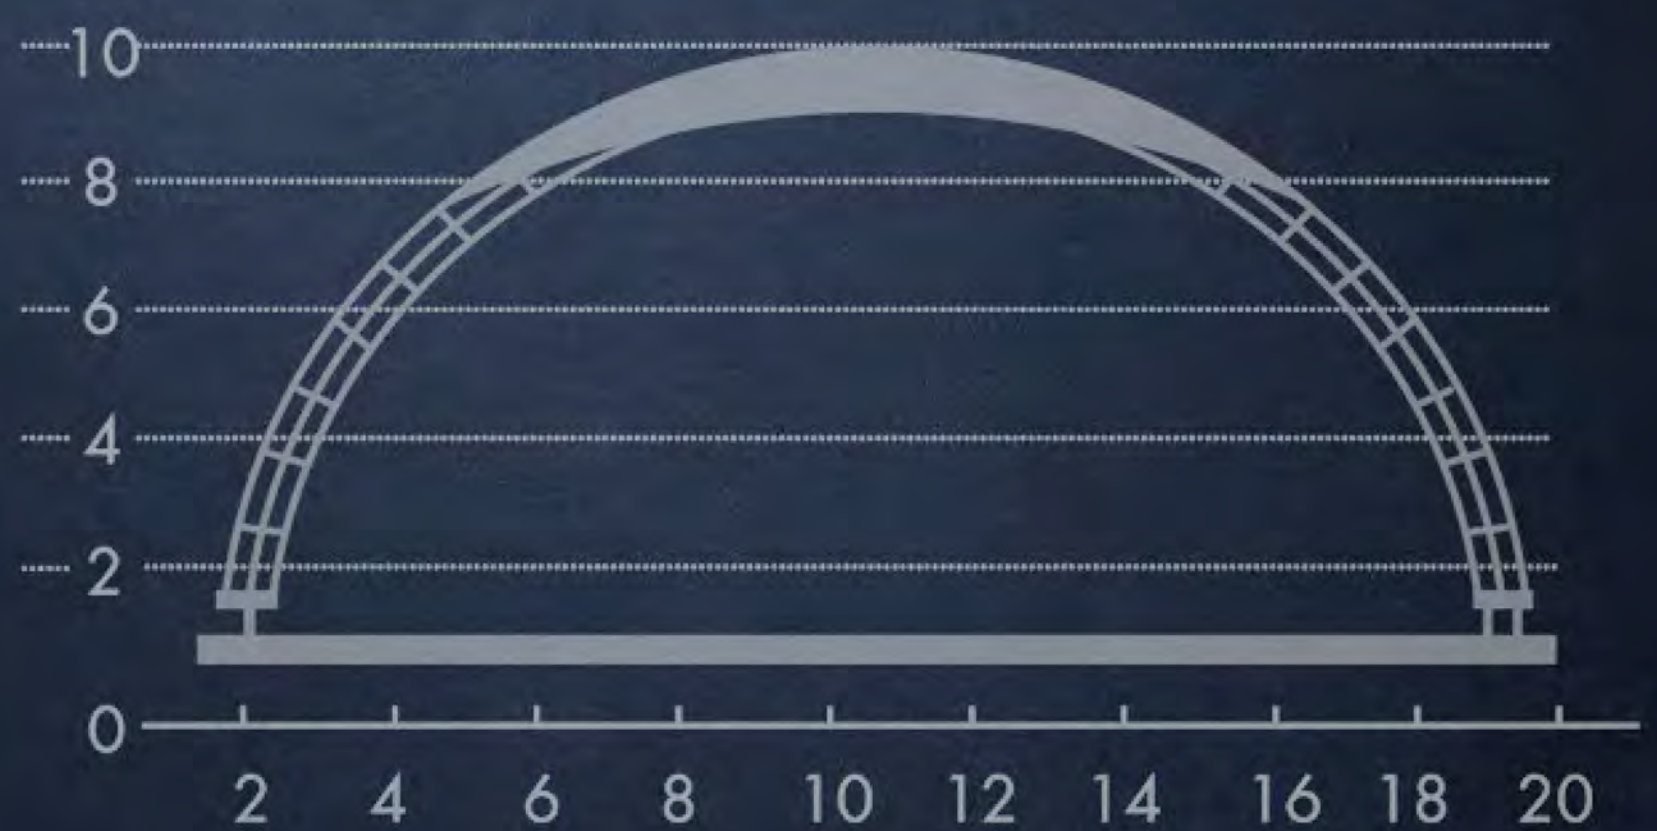

AVAILABLE SIZES:

10x5m

10x3m

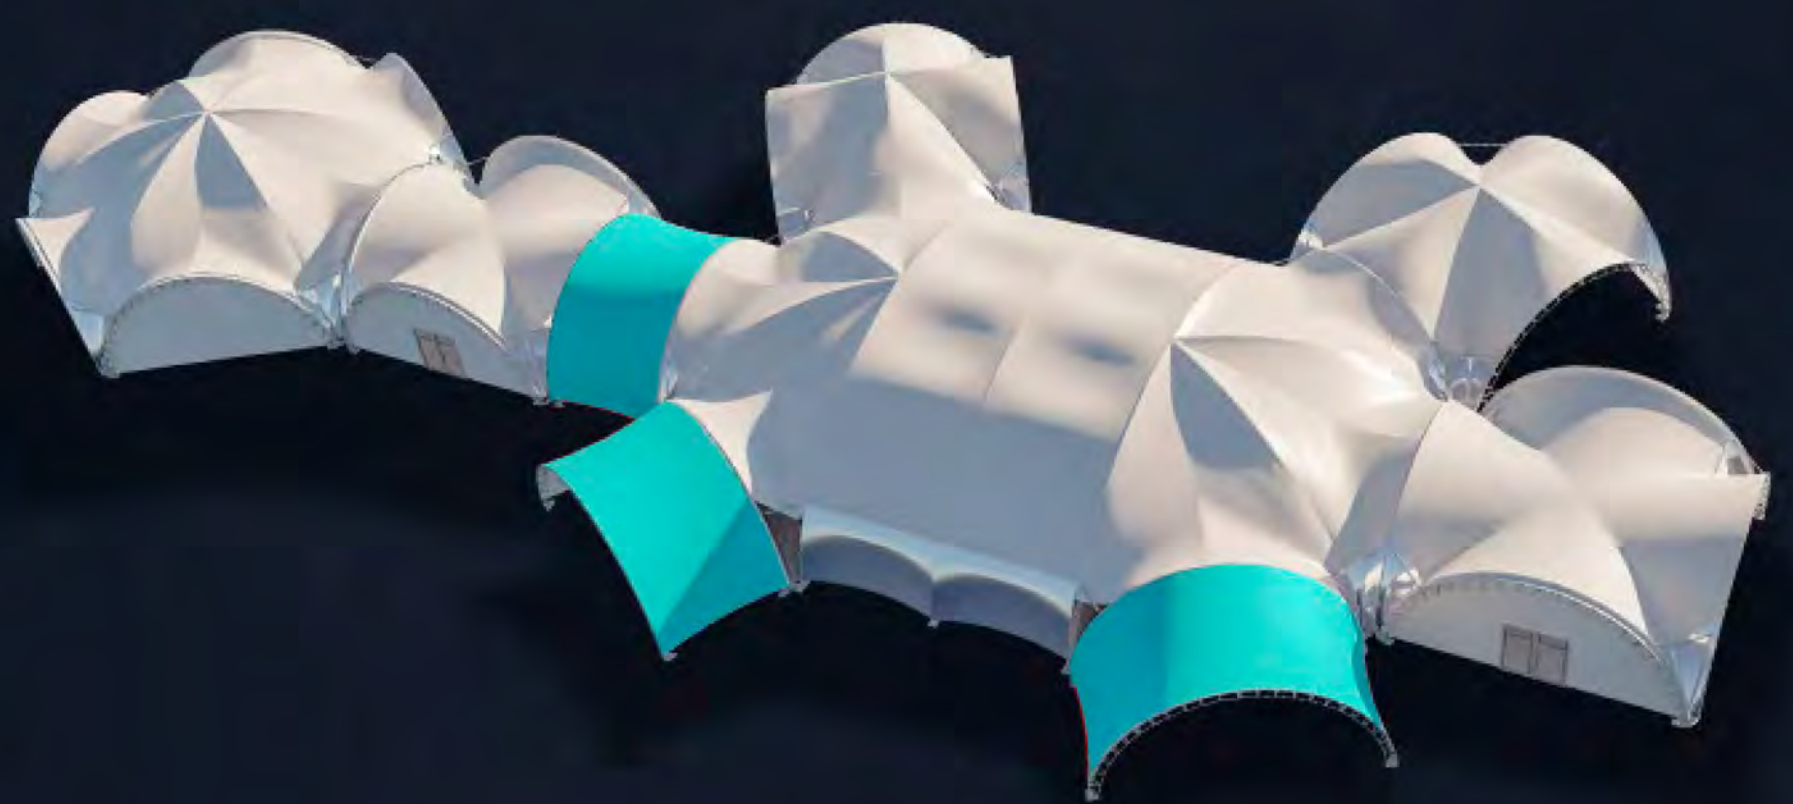

8x3m

Often used as a welcome zone at the main entrance or as an extension of the main tent for stage, media zone, kitchen, storage, back office etc.

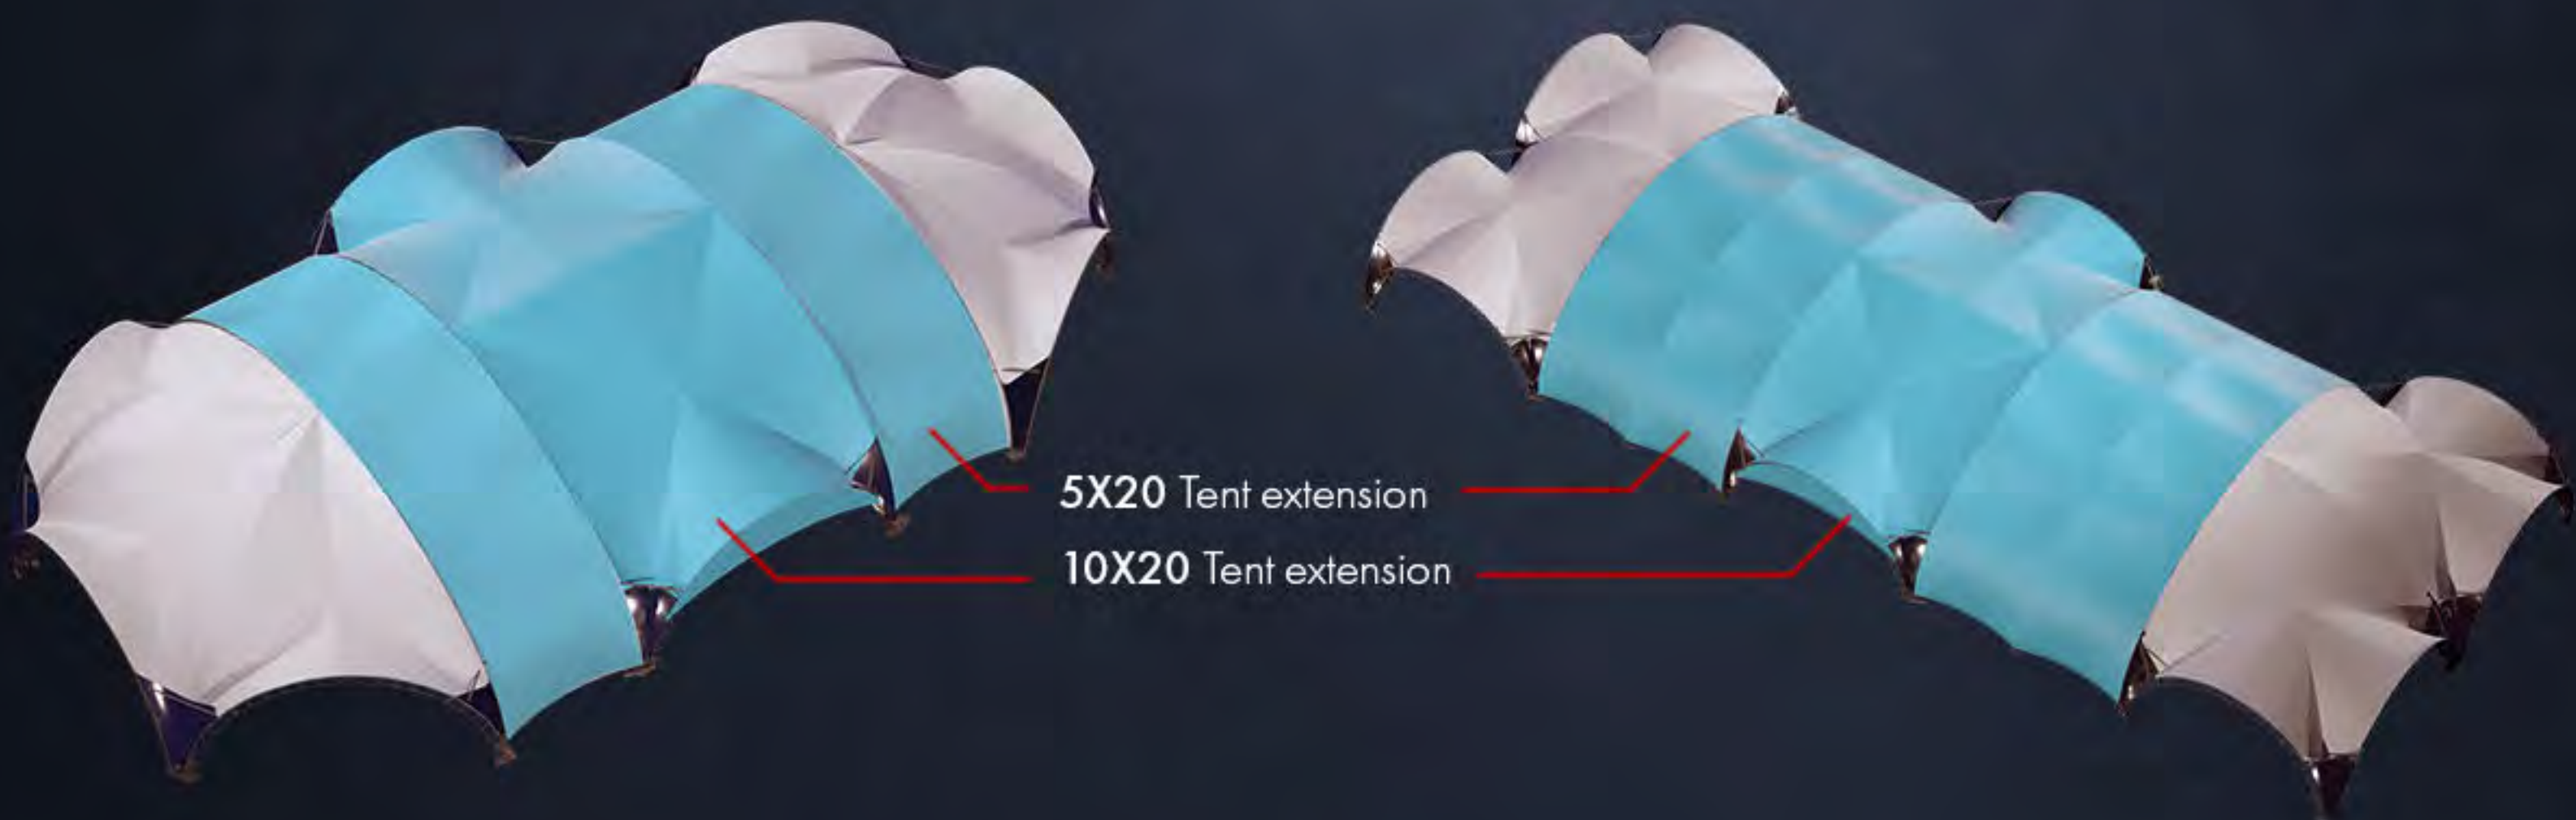

It can also be used as a connecting corridor between the tents.

LARGE ARCH TENTS with extensions

ARCH HEXA and **ARCH SQUARE** can be extended by adding infinite number of 5x20 or 10x20 extensions.

They can be combined in any order, to fit the requirements.

A tent can also have a configuration of **ARCH HEXA** on one side and **ARCH SQUARE** on the other side.

ARCH EVENT

AVAILABLE SIZES:

Arch 5x5m. New tensile model! Free standing. Sturdy and strong with elegant simplicity and cost effectiveness.

Can be fully closed with walls.

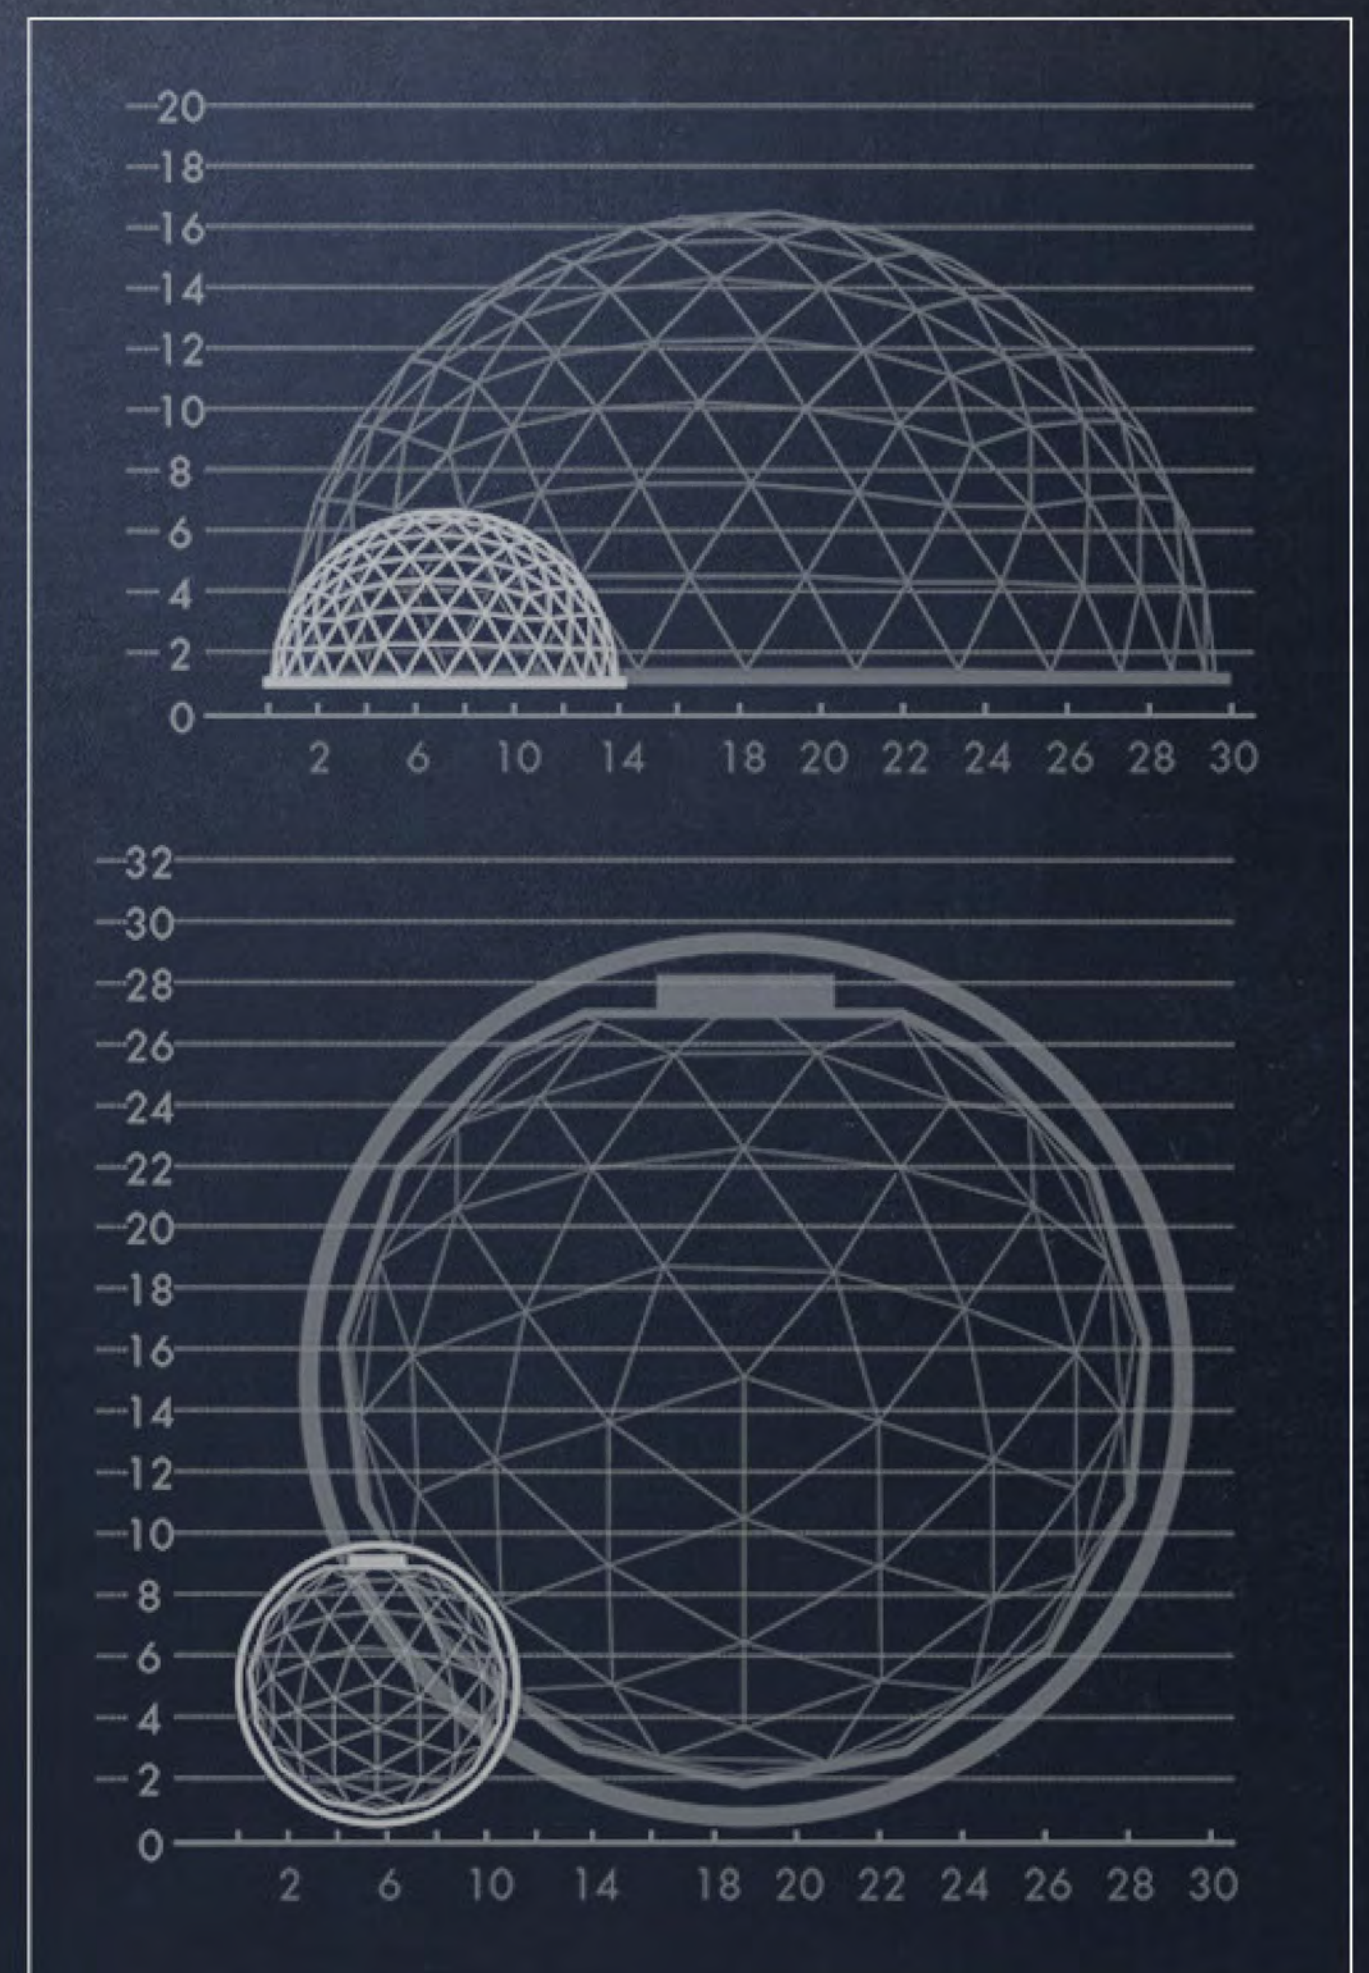

GEODESIC DOMES

AVAILABLE SIZES:

6m – area 28 sqm, height 3.2m
12m – area 113 sqm, height 6m
16m – area 200 sqm, height 8m
20m – area 314sqm, height 10m
26m – area 530 sqm, height 13m
30m – area 706 sqm, height 16m

Dome tents can have a customized skin and perfect 360° projection.
